Success Story...

Ms. Belitz came to our facility following a short stay in the hospital due to a Right Total Knee Replacement. Initially Susan presented with a great deal of pain and was limited with mobility. Physical and Occupational Therapy provided services 7 days a week to maximize her recovery. Susan was extremely motivated to reach her goals to return home independent. With consistent work and exercise Susan reached her goal in 2 weeks.

“ I'm happy to go home but I enjoyed my time here with everyone”

“ I plan to return here when I have my other knee done in December”
