

Concordia Transitional Care and Rehabilitation Maryville

Success Story

Patient Name: Mary Burchfield

Admitted: 7/24/18

Discharged: 8/18/18 Home

Ms. Mary Burchfield admitted to our facility on July 24th, 2018 after a 1 week hospitalization. Upon admission, Mary required assistance with all mobility, activities of daily living and ambulation. ADL and mobility tasks were very challenging and limited her ability to safely ambulate without fall risk. With dedication, daily exercises and compensatory techniques, Mary was able to achieve her goals to return home. Mary no longer requires assistance for ADLS, transfers or ambulation and was able to return home as planned at prior level of function.

“I enjoyed my time here. I would come back if I needed therapy again” ...

Mary Burchfield
